

## Vacuum Pump Warranty Overview

All Dekker Vacuum pumps and systems come standard with a 1-year bumper-to-bumper standard warranty (including parts, labor, and travel). Standard warranties commence at initial startup. If the startup is performed more than 3 months after shipment, the warranty period will begin at 3 months from shipment. For example, if the warranty period is 12 months, the initial startup is performed 4 months after shipment, the warranty will end 15 months from shipment / 11 months from startup.

For the Vmax Series Systems, there is an additional year on the motor, pump module, and, if equipped, VSD (parts, labor, and travel). An Extended Warranty (parts only) is available if they meet certain conditions. The Extended Warranty adds an additional 3 years to the motor, pump module, and VSD (if equipped), plus an additional 4 years to the cooler and discharge separator, overall making it a 5-year warranty.

Model	Bumper-to-Bumper Standard Warranty (includes parts, labor and travel)	Extended Warranty (parts only)
<b>Vmax Series Oil-Sealed Liquid Ring Vacuum Pump Systems</b>		
Vmax Series	1 year on entire Vmax system 2 years on motor 2 years on pump 2 years on VSD (if equipped)	additional 3 years on motor additional 3 years on pump additional 3 years on VSD additional 4 years on cooler additional 4 years on separator
